

25 Year Limited Guarantee

Tanalised® E Preservative Treated Wood Products

Arch Wood Protection (NZ) Ltd guarantees that conforming Tanalised® E (copper azole) treated wood products produced by Verda New Zealand where used as detailed in this document will be resistant against fungal decay (rot) and / or termite and insect attack from the time of purchase as per the table in this form. Any correctly treated and installed Tanalised® E treated wood products that become structurally or functionally unserviceable due to fungal decay or termite attack within the specified guarantee period will be replaced subject to the terms detailed in this form.

Treated Wood Products Limited Guarantee Program

The following table specifies the Tanalised® guarantee provisions for treatment level, service conditions and application examples that are guaranteed under this programme. This limited guarantee is against fungal decay and / or termite and insect borer attack only. Arch Wood Protection's (NZ) Ltd maximum liability under this limited guarantee program is strictly limited as per the following table and notes below.

Treatment Level ⁽¹⁾	Service Conditions	Specific Application Examples ⁽²⁾	Conforming Preservative Treatments ⁽¹⁾	Guarantee Provision
H3 / H3.2	Above ground and subject to periodic wetting, weather or moisture.	Exterior construction timber and wood products subject to weather - decking, handrails, balustrades, fences, joists & bearers, pergolas, cladding.	Tanalith® E (minimum of 0.23% m/m as copper (Cu) + tebuconazole in the wood	25 years - product replacement only
H4	Permanent ground contact, non-structural or non-critical applications	Garden walls & edges, fence posts, planter boxes, landscaping sleepers & non-structural retaining walls	Tanalith® E (minimum of 0.42% m/m as copper (Cu) + tebuconazole in the wood	25 years - product replacement only

Notes: (1) See NZS 3640 for full details of hazard class description and preservative retention.
 (2) These examples are not exhaustive – consult your supplier for further

Verda treated wood products and kits are supplied pre-cut and ready to assemble so minimal if any on site cutting is required by the end user. Refer to the installation instructions, recommended maintenance procedures and other information supplied with the kits. Effects of weathering, mould and surface discoloration are excluded from this limited guarantee.

This limited guarantee is independent of any other warranties and legal rights which you, as the purchaser or owner, may have with Arch Wood Protection (NZ) Ltd, the wood producer or the reseller of the treated wood products. This guarantee does not limit or modify any other rights that you have under law. Consult your supplier or Arch Wood Protection for further information.
